

Friday 19th January 2018

Vivasure Medical to exhibit at LINC 2018.

Vivasure Medical is pleased to announce that it will exhibit its PerQseal[®] vascular technology at LINC 2018, which will take place at The Trade Fair in Leipzig, from January 30th – February 2nd. Vivasure will be at **booth 37** on the main exhibition floor.

Arne Schwindt, MD, from St. Franziskus Hospital, Münster, Germany, will present an abstract on Vivasure's Frontier III clinical results during the session "*Update on clinical trials and new data – AV Access/ venous/embolisation / EVAR*" on Tuesday January 30th at 3.35 pm in Room 6, Speakers Corner.

About PerQseal[®]

PerQseal[®] utilises a fully absorbable, intravascular patch, which seals large arteriotomies from the inside. It is comprised of a synthetic polymer implant, and an easy-to-use, ergonomically designed delivery system. After deployment, the implant is rapidly endothelialised and fully absorbed.

About Vivasure

Based at one of Europe's largest medtech hubs in Galway Ireland, Vivasure is focused on the development of absorbable implant technologies with vascular applications. Vivasure operates a fully integrated R&D and ISO 13485 certified manufacturing facility and is backed by leading international medtech investors.
